

Qmulos LLC

Capability Statement

Technology | Professional Services | Training

Qmulos is an Independent Software Vendor (ISV), a leading cybersecurity and IT compliance company that delivers premier professional services along with innovative products to help enterprises improve their security and compliance posture. We build our Commercial Off the Shelf (COTS) products on Splunk's robust, scalable technology to unlock the value of your data and automate initiatives ranging from compliance and auditing to cyber defense.

Qmulos turns compliance into real-time risk management and operational security value with Real-time Risk Scorecards.

Our solutions are flexible enough to work for ANY enterprise, ANY environment, ANY framework, ANY control, and ANY data source.

Q-Compliance

Q-Compliance is the next-generation compliance monitoring and assessment suite. It combines real-time monitoring of your systems' machine data with the context and workflows of an Integrated Risk Management (IRM) tool, making it the most complete solution on the market based on the NIST Risk Management Framework (RMF). Reports many RMF (NIST/CNSS), CSF, CDM, ISCM, HIPAA, FedRAMP, CJIS, NERC CIP, PCI, CMMC

Q-Audit

The complete solution for audit and accountability controls. Q-Audit uses audit logs and configurations from operating systems, host-based agents, applications, and network appliances to demonstrate your compliance with common audit frameworks, including the 800-53 AU controls and the Intelligence Community Enterprise Audit Standard, ICS 500-27.

Customer Success Services

Qmulos' Customer Success Management (CSM) team is a collaborative partner in helping you achieve your security and compliance goals; evolving the compliance role from collecting data to taking action on real-time information to improve security. We support your team all through product kick-off, deployment, and adoption.
